Rushikesh Wadge

Student Ambassador at CoELSCM | ME Student at NIT Calicut |
Logistics & Supply Chain Management | Geopolitics & World affairs
Kozhikode, Kerala, India

Summary

I am a third-year Mechanical Engineering undergraduate at NIT Calicut, actively building a career at the intersection of operations, logistics, supply chain management, management, and consulting. With an engineering mindset rooted in process thinking, systems understanding, and structured problem-solving, I am particularly interested in how organizations design efficient operations and scalable supply chains. I enjoy working in environments that require planning, coordination, and effective execution.

Beyond academics, I have taken up leadership roles involving real responsibility, cross-team coordination, and execution—helping me develop strong skills in communication, stakeholder management, organization, and teamwork.

Leadership & Experience

Assistant Secretary, Industrial & Planning Forum (IPF)

Actively involved in planning and executing industry-oriented initiatives, coordinating with teams, and supporting professional development activities.

Student Ambassador, Centre of Excellence in Logistics & Supply Chain Management (CoELSCM)

Gaining exposure to logistics and supply chain concepts while strengthening collaboration, professional communication, and practical understanding.

Class Representative (CR)

Served for two semesters, representing student concerns, coordinating with faculty, and ensuring smooth academic and administrative processes.

Coordinator & Treasurer, Skylight'24

Contributed to organizing an inter-departmental competition, managing logistics, finances, and team coordination under deadlines.

I am actively seeking internships and project-based opportunities in operations, supply chain management, consulting, and management

roles, where I can learn through real-world exposure and contribute meaningfully to teams.

Open to networking, mentorship, and internship opportunities

Feel free to connect if you work in operations, SCM, consulting, or management
